Subject: VT Medicaid EHR Incentive Program - MAPIR upgrade; Website updates

Dear Providers and Preparers:

A recent upgrade to MAPIR addressed a few technical fixes, most of which are behind the scenes. However, one enhancement that providers and preparers will see is the ability to upload a range of file types to an attestation, where previously only PDF files were allowed. In addition, you will have the option of uploading additional documentation if an application is in *Submitted*, *Pended for Review* or *Completed* status. More information about file upload requirements and options are in the latest version of our MAPIR User Guides for both Eligible Professionals and Eligible Hospitals, available at our website.

The home page of the Vermont Medicaid EHR Incentive Program website (<http://hcr.vermont.gov/hit/ehrip>) has a link to the latest *Announcements and Updates*, as well as a Table of Contents for the various sections of guidance and policies.

If you have any questions, please contact the VT Medicaid EHRIP Team at: ehrip-support@vitl.net

Thank you,
Lorraine
