Subject: VT Medicaid EHRIP: Farewell, Tim!

To all our VT Medicaid EHR Incentive Program Participants:

Today, we say farewell to our Vermont Medicaid EHR Incentive Program co-administrator and Chief Data Wizard, Tim Tremblay. He has been instrumental in developing policy and guidance, as well as building the data systems that have enabled the processing and analysis of EHRIP attestation data. He has accepted another position within DVHA, as Data Analyst and Information Chief for the Blueprint program, where he will drive evaluation of the Blueprint programs through data analytics and will own the statewide implementation of existing and new payment models for funding these programs.

It is hard to know where would be without Tim's incisive analytical skills and thoughtful interpretations of EHRIP CMS policy updates and 'clarifications' as the program has matured. We will miss him, but wish him well in his new endeavors, and are happy that he will still remain in the same division within DVHA.

We are working to fill Tim's position as soon as possible, and hope to have a new person on board the EHRIP Team quickly.

Sincerely,
Lorraine
