WATCH YOUR EMAIL FOR THE STATEWIDE HIT PROVIDER SURVEY
As part of Vermont's annual planning activities related to the advancement of Health Information Technology, the Promoting Interoperability/EHR Incentive Program Team will be conducting a full review of the HIT landscape. The Provider Survey is a primary component of the landscape assessment, and will be sent out via email this month. The survey will gather important data about the adoption of Health Information Technology across the state, as well as details regarding the opportunities, challenges and barriers to HIT utilization among all provider types. Your participation is crucial to a successful assessment of Vermont's HIT landscape, as the analysis of the survey results will be the basis for understanding where the state can invest moving forward. Watch your email for an invitation to participate, and please send along your responses promptly. If you have any questions, please do not hesitate to contact the PIP/EHRIP Team: ahs.dvhaEHRIP@vermont.gov

Thank you,
